¹From the "State of the Library Report, September 30, 1977" of Brewer State Junior College, Tuscaloosa Campus Library, Tuscaloosa, AL; prepared by Frances Davis, Director of Library Services.

²From the "Annual Library Report, October 5, 1978" of Brewer State Junior College, Tuscaloosa Campus Library, Tuscaloosa, AL; prepared by Frances Davis, Director of Library Services.

³The remaining figures come from the Annual Report of each year of the Shelton State Community College Library; prepared by Deborah J. Grimes, Director of Library Services.

⁴Each year the FTE reported for each quarter was averaged to arrive at the figure indicated in the annual report, except as noted for 1990-1991.

⁵At some point around this time, the Shelton State Community College Library stopped circulating periodicals and no longer kept statistics.

⁶Monthly reports are available for this year, which includes circulation by broad LC subject classification (e.g., A, B, C, D, etc.).

⁷These figures include all print circulation and, for the first time, circulation statistics from the Technical Division were included. Prior to this time, there was no library on the Fifteenth Street Campus. With the advent of more formalized planning/evaluation reports required by the College, the Director of Library Services no longer prepared the same type of annual reports (which did not require statistical information).

⁸Shelton State Community College Library initiated its online system using Dynix software, beginning August 1994. Some statistical information was lost during this transition period.
